

CORPAG - Business Central Application Manager (Dynamics/Navision)

Who we are:

Corpog is a dynamic and international boutique trust and corporate services provider. Our goal is to remain relatively small-scaled, so that we can continue to distinguish ourselves with the personal services we offer to our clients.

We have 22 offices on six continents. Though legislation varies in different countries, Corpog's ethical code is strict and equal worldwide. We are very happy to help companies and private individuals that are, just like us, entrepreneurial, transparent and earn their money in a sustainable and responsible manner. We are here to optimize their business and be part of their success.

At Corpog we put great emphasis on our ESG policy, by always focusing on people and the environment, in anything we do. This drives us making clear and transparent choices on the industries and clients we want to work with. As we have been a successful and healthy company for close to 50 years and as making money is not our main goal, we are in a privileged position of being selective in which type of client we want to work with.

What we are looking for:

As an Application Manager you will work at Corpog's offices in Amsterdam, Miami, Cape Town or Curacao. For this function the aim is to recruit an enthusiastic professional who is capable to manage our ERP environment and can bring energy and new ideas.

Primarily you will be responsible for the technical performance of Business Central and the business reporting aligned applications. You will cooperate closely with the IT team and report to the Head of IT.

The ideal candidate has about 5 years of working experience at a professional services organization with a focus on improvement and automation of administrative processes and discovery and applying of new software.

You have an above average interest in business analytics and workflow applications. Microsoft Dynamics and Power BI have no secrets for you. Preferable you have knowledge of other power applications as well, Power Automate and Power Apps.

How we see you:

As an Application Manager you are responsible for the maintenance and improvement of the technical performance of our business processes within our ERP environment. You like to share knowledge with your business colleagues and continuously improve our applications in cooperation with your colleagues.

**What you should ideally bring:**

The ideal candidate is likely to fulfill most of the following job requirements:

- The ideal candidate has about 5 years of working experience at with a focus on business analytics with the ambition to make a career in IT;
- Self-starter who is passionate about his/her work and has a 'can do' mentality;
- Continuous drive to improve processes, reporting & user- and management information and has strong problem-solving and analytical skills;
- Hands-on, able to work independently and high accuracy of work is a must;
- Enthusiastic, pro-active and result driven attitude;
- Excellent written and verbal communication skills in English;
- Knowledge of Microsoft Dynamics 365 Business Central and Power BI is a must;
- Knowledge of business analytics is a must, experiences with accounting applications are preferred;
- Knowledge of the power applications Power Automate and Power Apps is an advantage;
- Experience with financial services and more specifically projects (e.g. time writing) are preferred.

What we value:

He who does not advance, goes backwards. And going backwards is not the way to go at Corpag. We want to go forward. Grow. Spread our wings. Safeguarding our existence while looking ahead. That also entails planning ahead.

At Corpag we attach great value to the competences of our employees. We expect you are familiar with our shared priorities and that you are strongly working together with other professionals. You are a specialist in your area of expertise. A constant focus on integrity is part of everything we do.

What we offer:

Corpog is a dynamic, diverse and international organization. We attach great value to personal development of our employees and therefore offer a wide range of education programs and have a strong focus on accompaniment and knowledge sharing and transfer.

As an Application Manager you will have the chance to working strongly together with other professional disciplines such as accountants, lawyers, compliance offers, business developers, but also within the IT department you will experience a team of professionals with different experience strongly together. A steep learning curve is guaranteed and more:

- A chance to be part of a rapidly growing global organization with the highest ESG and fiscal integrity standards in our industry;
- An organization with a true 'one firm'-approach worldwide, ensuring an inclusive workspace with a diverse team of young, knowledgeable, and high-achieving colleagues;

- Excellent growth and advancement opportunities and a working environment that stimulates learning and development, amongst others by having our internal education program, Corpag Academy;
- Flexibility throughout the entire organization thanks to a flat organizational structure with an always open-door policy;
- Competitive salary conditions and benefits, complemented by continuous initiatives to ensure employee happiness and well-being. Working in smooth, well-furnished offices that are located in the financial centers of Amsterdam, Curacao, Miami or Cape Town.

Hours: 40 hours per week (full time).
